

Discovery Call Script - Calibrate Media

1) Open (2 minutes)

Thanks for making time. I want to understand your current workflow, where execution breaks, and whether we are a fit.

2) Current state (10 minutes)

- What are your top 3 growth priorities right now?
- Where does execution slow down today?
- Which processes feel most manual or messy?
- What tools are in your current stack?

3) Impact (5 minutes)

- What is this costing you in time or revenue?
- What happens if this is not fixed in the next 90 days?

4) Desired state (5 minutes)

- What would success look like in 30 days?
- What metrics would prove this worked?

5) Decision context (5 minutes)

- Who is involved in the decision?
- What budget range is set for this project?
- What timeline are you aiming for?

6) Close (3 minutes)

Based on what you shared, I will send a clear scope, timeline, and fixed investment. If it matches, we can start [date].
