

Calibrate Media Business Asset Kit

This folder contains the core assets to run Calibrate Media as a service business.

How to use this kit

1. Replace placeholders in brackets (example: [Client Name]).
2. Start with brand and offer docs before publishing or selling.
3. Use sales and operations templates for every client.
4. Review legal docs with your attorney before use.
5. Track KPIs weekly using the finance templates.

Folder map

- 01-brand/: positioning, messaging, identity rules
- 02-offers/: offers, pricing, proposal template
